

*Voice of the Feral
After spay, neuter and return
Then What?*

Something Special Happened
on March 30, 2019

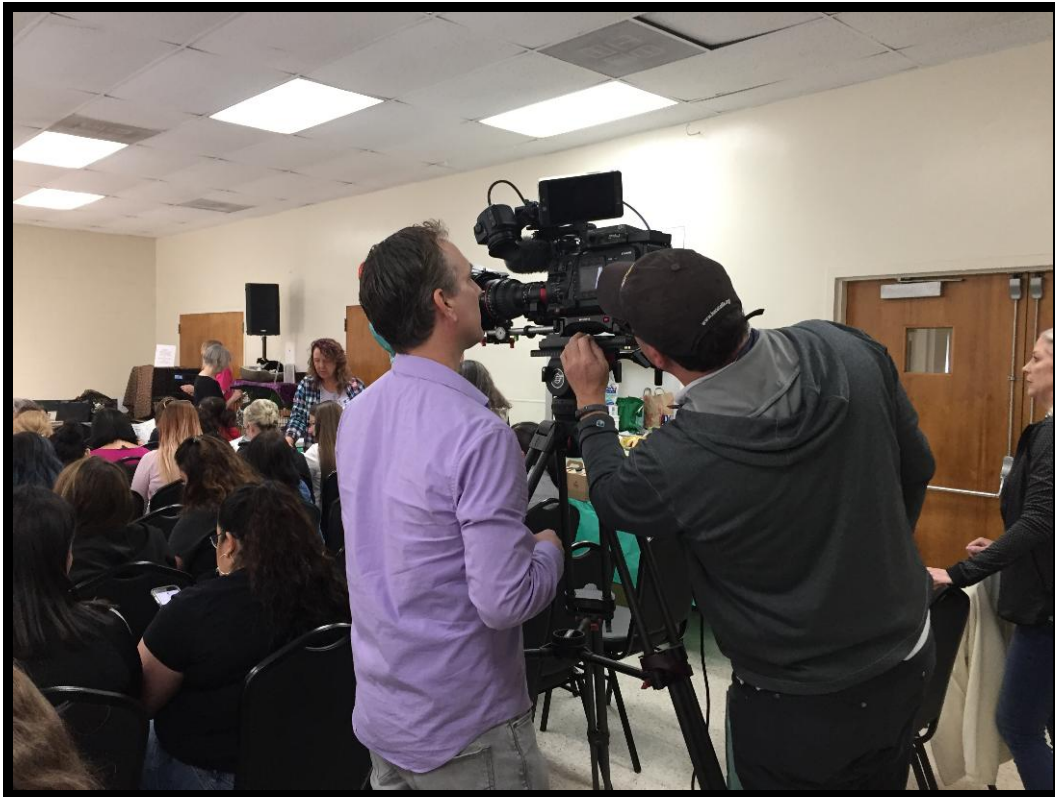

Join with us to celebrate the filming of
Feral Cat Caretakers' Coalition Community Cat
Workshop at the Veterans Memorial Complex
March 30, 2019

Steven Latham Productions who filmed and produced the SHELTER ME SERIES ON PBS, has chosen us for his next SHELTER ME SERIES. Steven's long search for humane answers, about the quality of life for TNR'D feral cats and kittens, being released back to outdoor situations, led him to us through our motto "After Spay, Neuter and Return, Then What?" It was the "Then What" he was searching for.

The humane solutions to this question are the foundation for our FCCC Community Cat Workshops and Feral Cat Programs.

The educational formula we teach offers life-saving results for feral cats and kittens and a path for humane support to those who chose to embrace their struggle for a "quality of life" and a rightful place in our society. Our programs are referred to as the "Gold Standard" for return. Get ready to sign up for our upcoming workshop in 2020.

Couldn't have done it without the dedicated support of our "special ops dream team". Each with a mission to make welcome our 98 Graduates

We now have 954 and counting

"954 graduates + 5 cats = 4,770 cats"

"954 graduates + 10 cats = 9,540 cats"

Lot's of mouths to feed!

A Message from the founder!

Good news! Working overtime at our two adoption venues at PetSmart Charities and as a result we rescued and found homes for 156 kittens and

a various assortment of strays from the streets and TNR'd over 200 feral cats.

Our graduates, with their tools and skills, are in the neighborhoods implementing TNR with managed care for feral cats and rescuing kittens under the most challenging conditions. Starving Moms and kittens routinely show up in search of food, in distress, in need of medical care and in need of a humane outcome!

Personal attention is given to the many calls for help on our online consulting. We provide information and professional guidance to the untold numbers of caretakers who struggle with the complexities of humanely caring for and saving the lives of kittens and their families living on the streets. Our Consulting email is info@feralcatcaretakers.org

With your committed support we can make our voices heard in feral cat communities and honor the dedicated people who see, in their beauty, a right to a quality of life! They are not alone.

Thank you for helping us do what we do best!
Dona Cosgrove Baker, President and Founder
